General Information:

Tree Planting

Trees will be planted by the management company only. Woodbrook Natural Burial Ground will be developed into a “scrubby” coppice woodland where every grave can have a tree planted on it. Only Native Irish trees will be used.

When setting up this natural burial ground the future sustainability is foremost in our thoughts. This sustainability is achieved by

- * Ring fencing a percentage of booking fees for future use
- * Designing the Natural Burial Ground to make it generate an income

By properly designing a woodland scheme the graveyard can retain its memorialisation and still sustain itself through coppice woodland management.

A healthy woodland consists of four levels of vegetation, a large tree canopy, an under wood layer (shrubs / coppice), flora (ferns and plants), and ground level mosses and fungi. The under wood layer is key to sustainability.

Some trees will be allowed to grow and form the large tree canopy – these include oak. Other trees can be planted on the graves from coppicable varieties such as hazel, alder, birch, ash etc to name a few. These coppice trees will be pruned at near ground level at intervals of between 7 and 15 years. This pruning or coppicing does not kill the tree but encourages more rigorous growth. The coppice wood will provide an income when sold for a variety of uses.

This pruning also has a positive effect on the woodland flowers such as bluebell and primroses. The sunrays reaching sections of the woodland that it normally would not triggers growth and germination. Many different woodland insects, butterflies, birds and mammals rely on this.

Coppicing the trees allows us to run, maintain and manage the burial ground and the trees have the potential to live for hundreds of years.

Cost Per Plot (These prices will remain unchanged until 1/1/2019)

A. Single Plot (1 interment)	€950
B. Double Plot (2 interments)	€1900
C. Triple Plot (3 interments)	€2850
C. 4 people plot	€3800
D. Ashes Plot	€400
E. Ashes Scattering in stone circle	€200

- * To reserve side by side plots - bookings must be made at the same time
- * Separate grave digging fees will be charged at the time of each interment
- * When purchasing a plot you are buying an exclusive “Right of Burial” (a right to be buried there), this is not legal ownership of the land itself.
- * Payment for plots needs to be completed prior to interment
Various payment methods are available
- * If a prepaid burial space has not been used within 10 years of booking then a separate administration fee is payable prior to use. This administration fee will be the equal to 2.5 hours minimum wage at the time of need.

Transferring bookings to other sites operated by The Green Graveyard Company Limited

We hope to open a number of other natural burial grounds throughout Ireland. We appreciate your booking and realise that in certain circumstances you may wish to transfer your booking to a different site that we operate.

- * In the case where we open another site closer to your home this booking is transferable subject to a small administrative fee – (the equal to 2.5 hours minimum wage). As actual grave prices may differ at other sites we hope to open you will also be required to pay the difference between price at the new natural burial ground of your choice and what you paid at the time of this booking.
